RIFLE ASSOCIATION TO HOLD A COMPETITION ON SATURDAY

New Rifles Have Been Provided and Keen Sport is Promised to all Competitors

PROSPECTS FOR CHAMPIONSHIP ARE BRIGHT

The first of the competitions for medals will be held by the Rifle Association on Saturday, and it is hoped that all who can will turn out. In addition to the twenty-five new Ross Rifles already secured for the use of members, twenty-five more are being obtained and will be at the Arts Building not later than Thursday. Every member is therefore assured of one for his own use throughout the season. A number of aperture sights have been bought by the association, and these can be fitted quite easily to the new rifles. Every man who wishes to make the Intercollegiate team would do well to get one put on his rifle.

Most men will find a sling of great assistance in holding the rifle steady in a strong wind, and the Association has arranged with the Sporting Department of Henry Morgan & Sons most advantageous terms. A sling, which is usually sold retail at 85 c. can be obtained for 60 cents, if the purchaser mentions that he is a member of the McGill Rifle Association.

Practice shoots are being held today and on Wednesday, so that all will have a chance of getting some practice before Saturday's competition. It is perhaps as well to point out that all members who wish to compete for the Dominion of Canada

Silver must shoot in all the competitions which the Association holds. These competitions are four in number, and are to be held on the following dates: Oct. 26th, Nov. 2nd, 9th and 16th.

Freshmen who wish to compete for the special prize must also shoot in all the four competitions.

In the Daily of Oct. 14th very full directions were given, as to how new members can join; the following is a brief review. Take the oath of allegiance with the University Librarian, Mr. Gould; pay the membership fee of \$1.50 to the Bursar; secure a rifle and ammunition from the Arts Bldg. janitor, take any St. Catherine car going East, and transfer at La Salle Avenue to the Bont de L'Isle car.

The annual Intercollegiate match will be held on the 9th of November and even if a man thinks he has no chance of winning a medal, he should at least come out and practice in order that he may help to win back the Intercollegiate trophy from Toronto. As no team is picked beforehand for this match, all have an equal chance of securing a place. The team consists of eight men who have made the highest aggregate scores on the day of the match, and these men have the privilege of wearing a handsome badge, which ranks second only to the big block "M."

VARSITY PREPARING FOR SATURDAY'S GAME

Champions Intend Taking no Chances with Presbyterians

On Tuesday, Varsity had their first practice since their decisive defeat by our team last Saturday. Those who watched the workout were particularly struck with the very muddy state of the Varsity team's uniforms, of course it would be well-nigh impossible for anyone who had not seen the game to have any idea of the state of the field; but a glance at the uniforms of the Toronto team on Tuesday immediately conveyed the impression that they had been rolling in a mud-pie.

The Varsity team are not in the least downcast over their defeat here last week. They still seem to think that if it comes to a play-off on a dry field—they having had enough of wet grounds—that they will bring another championship to Toronto University. Some of the players were heard to say that the field exactly suited McGill's heavy team and that some of their players were unable to negotiate the heavy going at all. It looked on Saturday as if very few of their players were able to do anything, not because of the heavy going, but because they were completely outclassed by their opponents.

None of the Varsity players were seriously injured and they will be in fine condition for Queen's who go to Toronto on Saturday. There is still great doubt whether Maynard will get into the game this week. As Varsity are somewhat the favorites for Saturday the great little half-back is hardly likely to be in the game at the start, but will be in a uniform in case of emergencies.

Dr. Wright put the team through a fast signal practice and the players seemed to remember the signals which they forgot two or three times last Saturday.

For about three-quarters of the practice game with the seconds, the seniors were unable to hold them at all, and were scored upon repeatedly. The second's seemed to be able to break through the seniors line with comparative ease and blocked Gonters' kick on several occasions. After the senior team got settled down, which they did towards the end of the practice, they pulled off some clever plays and showed flashes of

CARLISLE INDIANS TO PLAY IN TORONTO

Varsity Old Boys will Play Exhibition Match with Famous American Eleven

On Thanksgiving Day in Toronto the Varsity Old Boys will play that famous American team, the Carlisle Indians. It is a very big undertaking to bring a team from the States up here to play football. The idea in having these two play together is to pave the way for the annual games between the Intercollegiate champions of Canada and those of the United States. The game will be played under the American rules and this ought to be very interesting to Canadians, as it will give them a chance to see the interference game so popular across the border. The interference game is one which opens up many opportunities for brilliant play and also makes it most necessary for all the team to play together. The game will take place at Toronto Stadium and on both teams there will be players whose names have figured daily on the sporting pages of the newspapers of this continent. It will be a strange sight to Canadian football fans to see only twenty-two men on the field instead of twenty-eight. Many people are convinced that at the present time we have too many men on our teams and that we should at least drop the two extra scrimmage men.

The line up of the American team, as it was announced in Toronto, is as follows: Large, left-end; Guyon, left-tackle; Garlow, left-guard; Bergis, centre; Busch, right-guard; Calac right-tackle; Williams, right-end; Welch, quarter back; Thorpe (capt.) left-half; Goesback, right-half; Powell, full back. Every man on this team is a footballer of national reputation across the border and most of them are well known even in this country.

(Continued on page 4).

the brilliant play which has in former years marked them as such a great aggregation of football players. Outside of the doubt as to whether Maynard will play or not on Saturday the team will be the same as that which was defeated by us last Saturday.

THE AMERICAN CLUB

The "American" Students at this University have organized a club which will hold meetings from time to time. The first formal entertainment will take the form of a dinner on the 28th of November, which is held as Thanksgiving Day on the other side of the international boundary. The object of the Club is merely to provide students from the United States with a means of becoming better acquainted with one another and it is but natural that they should desire to celebrate their national holiday.

There have always been a great many students from the States, in attendance here, and we hope there always will be.

May the new American Club this and every year enjoy two thanksgiving dinners, ours, as members of a Canadian undergraduate body, and their own, in honour of their native land.

EDITORIAL NOTES.

We wish to express our appreciation of the able and successful efforts Mr. Ewing made on behalf of his client Mr. Ludington, who was discharged on Tuesday. Mr. Ewing took every possible precaution to exonerate his client and the judgement in Ludington's case must have been very satisfactory to Mr. Ewing. It was evident that Mr. Ewing took an interest in the cases of the other cases and in several parts of his defence he went out of his way to assist Mr. Barclay in getting evidence.

CORRESPONDENCE

Editor McGill Daily.

Dear Sir:—

If I may be allowed to use your columns, I would like to enquire as to what has happened to the Canadian Club. Is it going to be allowed to die a fearful death? Last year the Club proved to be one of the most popular societies around College. This year, however, nothing seems to have been done about it, although College has now been open for over three weeks. It is indeed a great pity that it could not have been organized sooner, for there have been several prominent men passing through Montreal who might have been able to address the club. Among others there were Mr. Kier Hardie, the great English Socialist and Sir George Asquith who was the government's representative in the great local strike.

No doubt the chief trouble is that there has been no one to call an organizing meeting in which officers could be elected. This, however, should not prove to be a great difficulty as the Club is under the authority of the Students' Council and in that way it would be quite in order for a meeting to be called by the President of the Students' Council, who was, by the way, on last year's executive. It does not make any difference, however, who it is that calls the meeting so long as it is called soon.

It must not be forgotten that every student is a member of the Canadian Club and pays a yearly subscription to it in the universal fee. So let the remnants of last year's executive get busy and let us be able to enjoy the Canadian Club before the Christmas exams begin to take up all our time.

H. HEMMING.

The Editor McGill Daily.

Dear Sir:—

There seems to be at the present time some confusion as to what constitutes a regulation McGill sweater. Previous to 1906 there had been an official sweater which had two white bands on the sleeves and two on the body of the sweater. In 1905—the earliest date to which the writer's knowledge of McGill extends—the official sweater was sold exclusively by Tom Graydon and then had a single white band on each sleeve and one only on the body. Since the Students' Council took over all athletic affairs, official

sweaters have only been obtainable through the Secretary on a special order and the writer has seen several of these so obtained which have the single band only on sleeves and body.

The Students' Supply has just received a large supply of sweaters, which purport to be of regulation pattern but have two white bands on the sleeves and it is this situation which has raised the question in my mind. I have been unable to obtain any accurate information of the subject, as on inquiry at the Secretary's office at the Union I was told that there were no Athletic Association handbooks obtainable and the only authority appears to be the Y.M.C.A. handbook, which with all due difference, is sometimes mistaken. It seems to me that any ambiguity on this subject should be cleared up as the matter is of some importance. It does not materially matter whether there be one or two white bands, except that the preference is generally in favor of retaining old usages, but there should be some hard and fast rule laid down to regulate the arrangement of the colors on what is really our athletic uniform. I hope some of your readers will be able to furnish some information on this not unimportant subject.

Thanking you for space

I am,

Yours truly,

R. E. L. Hollinsed.

ANNOUNCEMENTS

THE HISTORICAL CLUB

The Historical Club will hold its first meeting in Room 59 of the Engineering Bldg. on Thursday at 8 p.m.

RIFLE CLUB

There will be a practice shoot on Monday morning, car leaving 8.30. Sign at the Union. All those having out old Mark 2 rifles will exchange immediately for new rifles as the old ones are to be returned to the stores. All those shooting on Saturday's Medal Competition sign up before Thursday night. A special car leaves La Salle Ave. at 1.30.

MEDICAL SOCIETY.

There will be a meeting of the McGill Medical Society on Friday evening, Oct. 25th, when Prof. Simpson will deliver an address on Darwin. There will be the usual programme of music and case reporting.

MOORE'S
NON-LEAKABLE
FOUNTAIN PEN

There are two things that you have a right to demand of a fountain pen—perfect work while in use and good behavior while not in use.

Moore's covers both of these to perfection. Not only does it write the instant you want it to, but it keeps on writing freely and evenly as long as there is a drop of ink in the reservoir.

When you are done with the pen a simple operation pulls the pen-point back into the barrel, the cap is screwed on and the ink reservoir becomes an air-tight chamber from which it is impossible for ink to escape. Moore's is the original non-leakable fountain pen. Naturally the success of this pen has brought forth many imitations, and it is this which prompts us to advise you to look carefully for the Moore imprint.

For sale by dealers everywhere.

NOTES AND COMMENTS

The crowd last Saturday was quite equal to that at the Varsity game last year if not a little larger. What the crowd would have been like if the weather had been favorable is a matter of conjecture but it is certain that it would have eclipsed all previous records.

Ottawa College have arranged for an exhibition game next Saturday with the Toronto Rowing Club who smothered Parkdale on Saturday last.

The result of the Queen's vs. Varsity game next Saturday will be watched with tremendous interest by McGill men as this will be the first meeting of these two teams. McGill goes to Kingston on November 2nd, and after next Saturday's game at Toronto, it ought to be an easy matter to dope out the relative strength of the Red, yellow and blue.

The Second team go to Kingston this Saturday to play R.M.C. they will be greatly strengthened by being able to take some of the first team's substitutes along, as the seniors have not so far arranged a match for that date and probably won't take any chances of men getting hurt by playing an exhibition game.

Buster Matheson's catch of last Saturday marked him as quite eligible for a place on either the Red Sox or Giants.

The inside kick is one of the prettiest plays in football, and when worked successfully is a splendid ground game. Hamilton very nearly beat Ottawa last Saturday by a play of this kind; and we all know about the McEwen to Bignall play which gained us thirty yards at least.

Ted Savage and Billy MacMaster last Saturday's officials gave perfect satisfaction, there being no disputes worth mentioning.

Hazlett of Queen's and Gonter of Varsity ought to have some great punting duels as both men are splendid kickers. Hazlett has been one of the stars of the season so far and bids fair to be one of the greatest half-backs in the game.

Leslie Goodeve, who played for McGill three seasons ago, is now Captain of St. John's football team of Winnipeg.

Both Frank Shaughnessy, McGill's great coach and Doctor Galvin who is looking after the Ottawa Interprovincial team, are American footballers. This is their first experience of the Canadian game and also the first time any of our teams have been handled by an American Coach. To say that both these men have made good is putting the case far too mildly. McGill and Ottawa are the two teams at present picked by football critics for the semi-finals in Dominion Championship play-off.

How do Varsity figure that they would have done better on a dry field? With a dry ball Billington should have been for four or five drop kicks as the ball was in Varsity territory 70 per cent. of the time. George Laing's speed on end runs was practically nullified, he was depended on to be one of the biggest ground gainers on the team. Billington would have outkicked Gonter even worse than he did on the wet field.

Fumbles played a very small part in the result: each team got one touchdown on a fumble which evened things up on that score. There was wonderfully little fumbling considering the condition of the ball, so this excuse he put forward. The most biased Varsity supporter cannot but admit that McGill outclassed Varsity in following up and tackling. If they could do this on a wet field, what would they have done when the footing was absolutely sure? If McGill could rip up the Varsity line like paper in pools of water, how does Varsity figure they could have held them on a hard ground? Varsity were out-generated from the first blow of the whistle. Varsity have made a great reputation and deservedly so for back plays. They claim they couldn't pill them off on a wet field. Then how did McGill, who supposedly rely on straight football and their heavy line, make yards on several different occasions on fake plays whereas Varsity never made a single yard.

ANNUAL HARRIER RACE
WAS A BIG SUCCESS

Russel, the Speedy Distance Runner Wins the Cup with Walsh a Good Second

The annual inter-year run took place yesterday evening although rain had been falling all day and continued to do so during the whole event. In all fifteen men entered for the contest, which is a larger number than has taken part in this event for several years. Of these twelve finished, some of them in splendid time.

The course led from the main entrance of the College grounds, along Milton St., up Park Ave., to Mount Royal, along Mt. Royal to St. Catherine Rd. to Bloomfield, to St. V. ature, Outremont Park, and back again down Park Ave. with the finish at the Milton St. gates, a distance of nearly five miles.

The time made was 25 min., 12 sec. by Russell who won the race and finished in splendid form and with a fine burst of speed with a lead of 100 yards. The second was Walsh, Capt. of the team, in 25.32, who also finished fresh, and who can be relied on always to do good work on the team. Next came Scott and Struthers who finished almost together, Scott having a slight advantage. The sixth man was Wall, the president of the Club, who made the team in 1910.

The rest finished fast and in the following order: Wickenden, Hemming, Henson, Leitch, Cole, Wood.

The entry from McDonald College, E. White, who ran the half mile for McGill in the Intercollegiate championships last year would have represented his college well, but for an unfortunate lack of knowledge of the course. He was running a good fourth up to a quarter of a mile of the finish when he took a wrong road which led him out of the course. He will, nevertheless, be taken as a member of the team and will probably be used in the case at Kin's on.

The team who will uphold McGill honors over the R.M.C. course on Nov. 2nd will be made up as follows: Russell, Walsh, Hague, Scott, Struthers and White, to whom we look to bring home the cross-country championship.

As a result of the race to-day Russell wins the cup, and Walsh, Hague, Scott, Struthers and Wall win silver medals.

The officials for the race were:—Time-keeper Kirk-McLeod; judges of course, S. Bruneau, H. Matheson, K. Morrison and E. Dale-Harris.

BASKETBALL SQUAD
HOLD BIG PRACTICE

Best "First Night" Club Has Ever Had in Recent Years

The initial practice of the Basketball Club was held in the gymnasium last night. Although there were more than twenty on the floor which is exceptionally good for the first work out.

Mr. Geo. Kennedy, who had charge of the play, when spoken to later said that the practice last night was the best "first night" that the Club has ever had and that with all the members of last year's championship team back and much promising material in view, the prospects of the Club are extremely bright. Dunfield, Baldwin and Calder, three members of last year's first team were out, as well as some very promising freshmen.

It is hoped that all who have had any experience in the game will turn out at the practices which take place every Monday, Wednesday and Friday afternoons from 4 to 5.30.

Among those out were Walters, Fraser, Conover, Ord Rexford, Fisher, Parsons, Gold-lott, McEwen, Mac Dougall, Pophama, Hooper.

MORE PRESS COMMENTS

The big football surprise of the season Saturday was the defeat of the champion Varsity team by McGill at Montreal.

The absence of Jack Maynard undoubtedly cut some figure in the play but the big difference in the score can hardly be explained by the loss of one player. The heavy, muddy field was against Varsity's style of play, and when McGill got the drop on the Toronto team and scored 18 points in the first ten minutes it was all off with Varsity. From then until the end of the game Varsity held their own, both in the play and in the score. The Varsity players decline to make any excuse for their defeat; they admit they were beaten on the merits by the better team under the prevailing conditions under foot. McGill played like whirlwinds in the muddy, slimy going, and were in much better physical condition than they were in their first engagement in Toronto, Varsity won handsomely.

McGill's victory tips the teams in the championship race, and if not defeat Queen's as is expected, there will be a play-off on neutral grounds.

THE QUEEN'S HOTEL

MCGILL & WINNELLT
Proprietors

is the most comfortable hotel in the Dominion. While possessing every modern convenience and the latest and most scientific improvements, The QUEEN'S has always been famous for the solid, cozy home-like comfort which is a part of the best hotels. Elegance and comfort are combined in the happiest manner. The QUEEN'S has been thrice patronized by royalty and the best families. Two hundred rooms, one hundred with private bath, surrounded by beautiful gardens and facing Lake Ontario renders it the coolest and best ventilated hotel in Toronto.

which should be a battle royal—Toronto Star.

THE READER'S CLUB

Wow! Something tumbled on Varsity Saturday! It may have been the wind, it may have been the absence of Maynard, or it may just have been the McGill team. Anyway, it was an awful shock to the football public of this community. And as things look now, you can pretty nearly see McGill and Varsity playing off for the intercollegiate championship. Queen's on their showing to date, can't stop either of them in Kingston or elsewhere. And when that play-off comes it will dwarf the Canadian championship just what you'd notice. But it will never do to let Ottawa Rough Riders and McGill both win championships. They're the two teams that are handicapped with American coaches. If they can carry that handicap and still win, it will be a terrible blow to those who know all about football as it is played in Canada.—Toronto Telegram.

Last Tuesday the Readers Club held their first meeting this season. There was quite a good attendance. The first speaker of the evening was Dean Moyse. He made a few very practical suggestions about the selection of subjects. Prof. Dale also spoke on the same subject. The Dean then read some poetical selections in his own excellent style to the delight of everybody. The years programme was then drawn up and the members chose the subjects for their papers. After refreshments the meeting broke up.

The Michigan freshmen of Michigan University are in better physical condition than last year's class. They are also much more prompt in enrolling in gym classes and on the whole seem to like athletics better.

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section along side his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$2000. W. W. CORY.

Deputy of the Minister of the Interior.

SPLENDID EFFORTS OF ROOTERS AT GAME

Many Complementary Comments were Made in the Stand

One of the outstanding features of last Saturday's game was the splendid showing of the Rooters' Club. The newly erected Rooters' Stand was filled to overflowing easily half an hour before the game began. Everybody who was in this section had Red and White colors about him in some form, either a McGill pennant or streamers. A large red 'M' was formed by men with McGill sweaters. This stood out very well and was remarked upon very favorably by those in the western stand. The songs and cheers were rendered better than ever before, especially some of the parodies made a decided hit. Fortunately on Saturday our team needed no encouragement, but if any had been needed the Rooters' Club certainly were well fitted to supply the necessary stimulus. The M-C-U-I-L-L-L even when the team made their first appearance on the field was enough to inspire anybody with a desire to bring laurels to their college. It seems to have had a very decided effect on the team last Saturday.

Great enthusiasm was shown by the Members of the Rooters' Club in turning out to practices. Two practices had to be attended by any who wished to be eligible for the Rooters. Many of the fellows were present at three or four practices and consequently were able to render the songs and cheers perfectly.

An added attraction this year was the band and this addition is one that was most heartily appreciated by everyone. All through half-time and during any of the delays the band rendered lively airs and of course were invaluable in aiding the Rooters. A band is a great improve-

NEW AMERICAN CLUB HAS SECOND MEETING

Officers were Elected and a Dinner Arranged for November 28th

The American Club of the University held their second meeting last evening at the Union. The main business of the evening was to elect permanent officers and to make arrangements for the celebration of American Thanksgiving Day. The temporary chairman, J. E. Meeker, presided, and was later elected president of the permanent organization. Professor Ludlow was unanimously elected to the office of Honorary President. Following his election he arose to thank the Club for the honor, and to express himself as heartily in favor of the organization which have no political tinge whatever, as the Club is for the purpose of bringing the American students and members of the teaching staff in all faculties together to cement a bond of good fellowship among the present members and to welcome future members to what will be their home for a number of years. The election of the rest of the officers quickly followed. C. R. Gibbs, Science '13 was elected Vice-President; J. B. Hirschberg, Med. '14, Secretary and Joe Hall, Arts '15, Treasurer. Next five directors were elected. Mr. Day, as representative from teaching staff; S. Lusy Salien, Med. '14; Fred Baird, Med. '13, H. W. Jery, Sci. '14, J. F. Gallagher, Med. '14. These gentlemen, together with the officers, constitute the Board of Governors. A committee consisting of Professor Ludlow, Mr. Day, from the teaching staff and King, Karnes and Phelan were appointed to review the Constitution and report to the next meeting. The Dinner Committee consisting of Messrs Baird, Atkinson and Gallagher are to make necessary arrangements for the dinner which will be held November 28th, that day being set aside as a Day of Thanks, giving all over the United States. There was a good-sized crowd in attendance but they did not represent all the American students, and it was hoped that others who were not present would make haste to send in their names, especially lower class men and Freshmen for on this occasion Freshmen, upper class men and members of the Teaching Staff are united in the effort to further the relationship of Americans at the University and to celebrate in a fitting manner one of the holidays they hold most dear.

HISTORICAL CLUB

To-night in the Engineering Building the Historical Society will hold its first meeting.

This Club was formed some years ago by the Professor of History one who while he was actively connected with the University showed a great enthusiasm in the affairs of the club and who although not now, delivering lectures still maintains his interest in the Society. Dr. Colby formed this society more or less after the plan of those which are at Toronto, Harvard and other large universities.

The Historic Club meets every second Thursday evening. A programme for the whole season is arranged and papers are read on subjects of historical interest. The papers are chiefly concerned with modern subjects.

To-night the Club will discuss three papers under the general heading—Panama. The subject will be treated in three papers. The Darien Scheme, by Mr. Dewey; The Clayton Bulwer Treaty by Mr. Dale-Harris; and the Construction of the Panama Canal, by Mr. Heaton. It is hoped that all the members will be on hand to give the Club a successful start.

ment at a football match where owing to unforeseen occurrences there are bound to be delays. The game last Saturday was very free from stops of any length of time, but even in the few there were the band managed to make itself very popular. Much credit is due to the members of the band as they had only had about six practices together.

Bill Hughes deserves a word of praise for the interest he displayed in the Rooters and for the results which he achieved.

At present it looks as if there might have to be a play-off in which case it is likely that Kingston or Ottawa will be chosen for the deciding. A good crowd of Rooters would help the team immensely and it is to be hoped that if there is a play-off the Rooters' Club will be with the team in full force.

"The Call of the Wild" is the distinctly original heading on a call for the organization of a Roosevelt Club, published in the "Yale News."

INAUGURAL MEETING OF NEW BOY'S CLUB

Mr. Owen Dawson Gave a Most Interesting Address Last Night

A meeting was held last night in Stratheona Hall to consider the formation of a boy's club in this district. The idea is to have the club run by students of McGill. There were not very many at the meeting.

The speaker for the evening was Mr. Dawson who spoke on his work among the boys of the city. He told how the idea started and the beginning of the club which he started in Grifintown. He started it in 1908 and at first held a meeting but once a week, but lately it has been found necessary to hold meetings three times a week.

The speaker contradicted the statement that crime was hereditary and said that it was not hereditary but environment that made criminals.

He then spoke about his work and the ways in which the boys are to be interested. It seems many of the boys are led astray and take to stealing. The result is that unless some influence can keep these boys out of mischief they are very soon in the police courts. One of the favorite tricks of these little vandals is to rob grain cars. This, it seems is very profitable, as is also stealing brass fittings from railway cars. Others again, turn out to be professional house-breakers, and show remarkable cleverness.

Mr. Dawson also spoke on what the city boy is like at his first glimpse of the country.

He says that one boy when asked what made night and day replied, "The Sun." "That's fine but how does it do it?" "Oh, the Sun goes across the Sky in day time and goes back at night," "But why don't we see it at night," the youngster was asked, "Oh! because it's dark."

After Mr. Dawson's speech it was decided to visit Mr. Dawson's boys Club to-morrow night at eight o'clock.

TRAINING CORPS HAS PRELIMINARY DRILL

Forty Two Members were Present Yesterday After-noon

The Canadian Officers Training Corps of McGill held a preliminary drill yesterday afternoon at 5 o'clock. The drill took place at the Drill Hall of the Armoury of the Fifth Royal Highlanders on Bleury street. Forty-two members were present and the drill was conducted by a Sergeant Major of the Royal Highlanders.

Captain Smart and Prof. McKernon who have identified themselves with the movement were also present.

The drill instructor put the men through the more elementary movements of infantry drill. Forming ranks in single and double files, the right and left turns and inclines and other simple movements were practiced.

Considerable keenness was displayed in the class.

The instructor hopes to have the companies organized before the next drill. He laid considerable stress on men thinking for themselves, as at the next meeting individual members will be called upon to put the company through the movements practiced to-day.

CARLISLE INDIANS WILL PLAY IN TORONTO

(Continued from page 1.)

Thorpe, the left half, and captain, is none other than the famous James Thorpe, of the Olympic games. He has played for the Carlisle Indians for several seasons now and in the United States is considered the best left half that ever played the game. Welch, Powell and Bergis are all well known footballers and it is a perfect treat to watch these men pull off their systematic and skilful plays.

On the Varsity Old-Boys Team will be such famous ex-Varsity men as Smirle Lawson, Hugh Gall, Jack Newton, Bull Ritchie, Park Rankin and Bell. These men will be playing under certain disadvantages but even then a combination made up of players of the above calibre ought to be able to take a stand against the best team the American colleges can turn out; and Carlisle has one of the best. Walter Curran, of Varsity, has had charge of the arranging of the game and has spared no pains to make it a success. Monday being a holiday, such a galaxy of stars playing together, and the novelty of the American game, all should tend to bring out such a crowd of football fans as has never before been seen in Toronto.

PHYSICAL SOCIETY

The 2nd meeting of the Physical Society was held yesterday evening in the Macdonald Physics Building. Prof. Barnes was the speaker for the evening and lectured on "A Study of Icebergs." Before commencing, refreshments were served.

The speaker told of the studies which he had made in connection with icebergs and the results, which he obtained. He said that as the American papers were saying that the New York route was safer than the Canadian, he had made a diagram which proved that the ice track by the New York route was greater than by the Canadian.

Dr. Barnes was not trying to exploit his invention, but was simply figuring to put the study of icebergs on a scientific basis.

The lecture was illustrated by many lantern views showing the ships on which he had tested his invention, and charts showing the variations in temperature as the ships moved forward and away from the icebergs. The lecturer also explained the working of his invention and proved conclusively that it would always work.

The lecture was exceedingly interesting and told in such a manner, that even if the subject were not of so much value, one could not help but listen to it.

THE CUP OF TEA.

Come hither, pretty waitress,
Come hither unto me,
My friend and I are thirsty
And waiting for our tea.

We cannot chat in comfort
Before we have the cup
Which helps the flow of gossip,
And which cheers the female up.

So hasten, maiden, hasten
And bring us in the brew,
We'll stay for just about an hour,
And leave five cents for you.

At a recent track meeting at Stanford University many college records were broken, viz., pole vault at 12 feet; and high jump at 6 ft. 4 inches.

Purdue is the only University boasting of a Canoe Club. Last Saturday sixty craft took part in a cruise up the Wabash River.

A movement in favor of women suffrage has been started among co-eds at the University of Michigan.

NON SKID CHAINS

This is the time of the slippery roads when all cars should be equipped with chains to prevent accidents from skidding.

BUY BEFORE ACCIDENT HAPPENS

We carry a complete stock in all sizes of
WEED, ATLAS and MILLENIUM CHAINS
and respectfully solicit your orders and inquiries.
